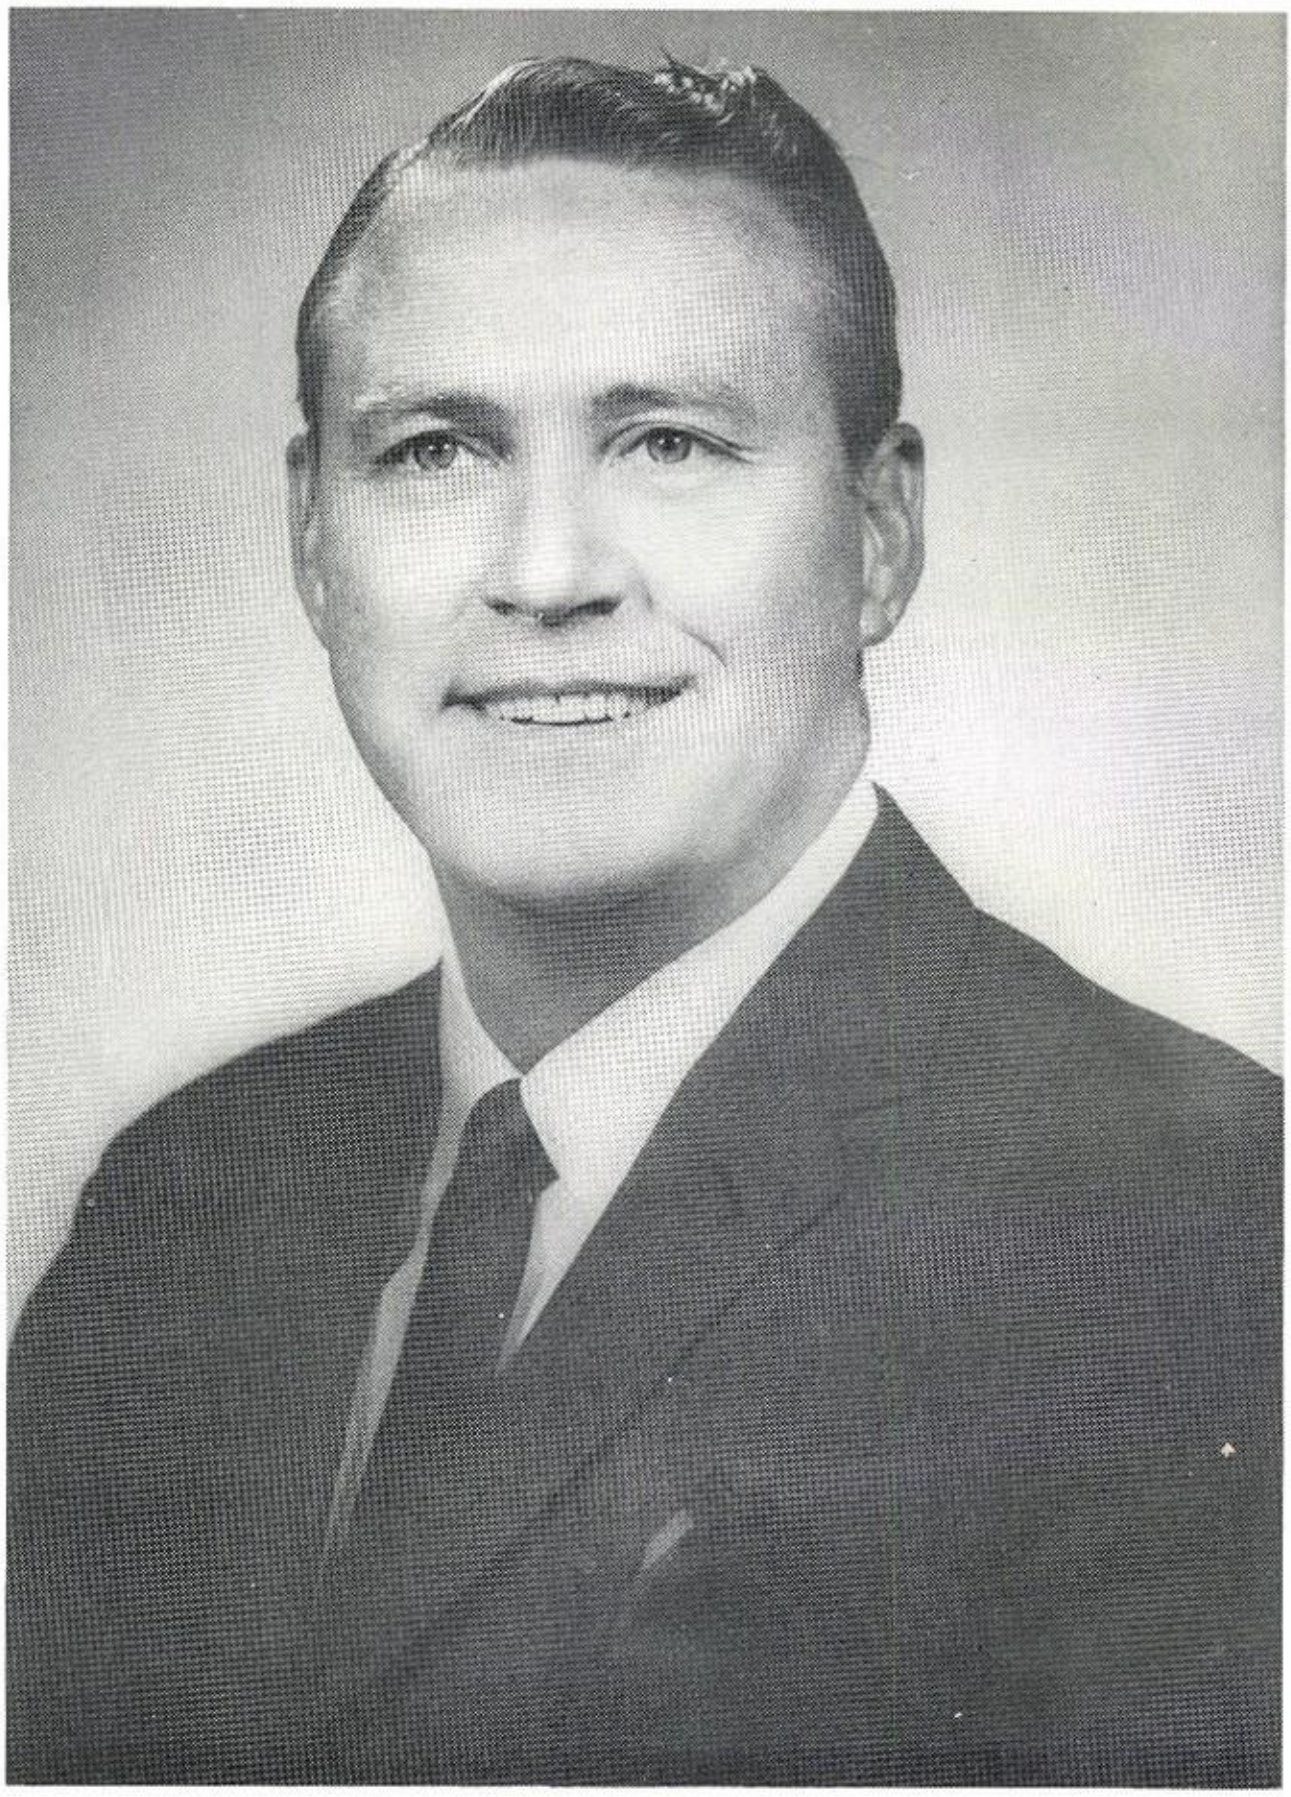
San Antonio Academy
of Texas

Blue Bonnet 1968



The Staff of Blue Bonnet 1968
and the students of
San Antonio Academy of Texas

dedicate this yearbook to

Mr. John D. Priest,

Athletic Director, Teacher, and Friend

Dedication

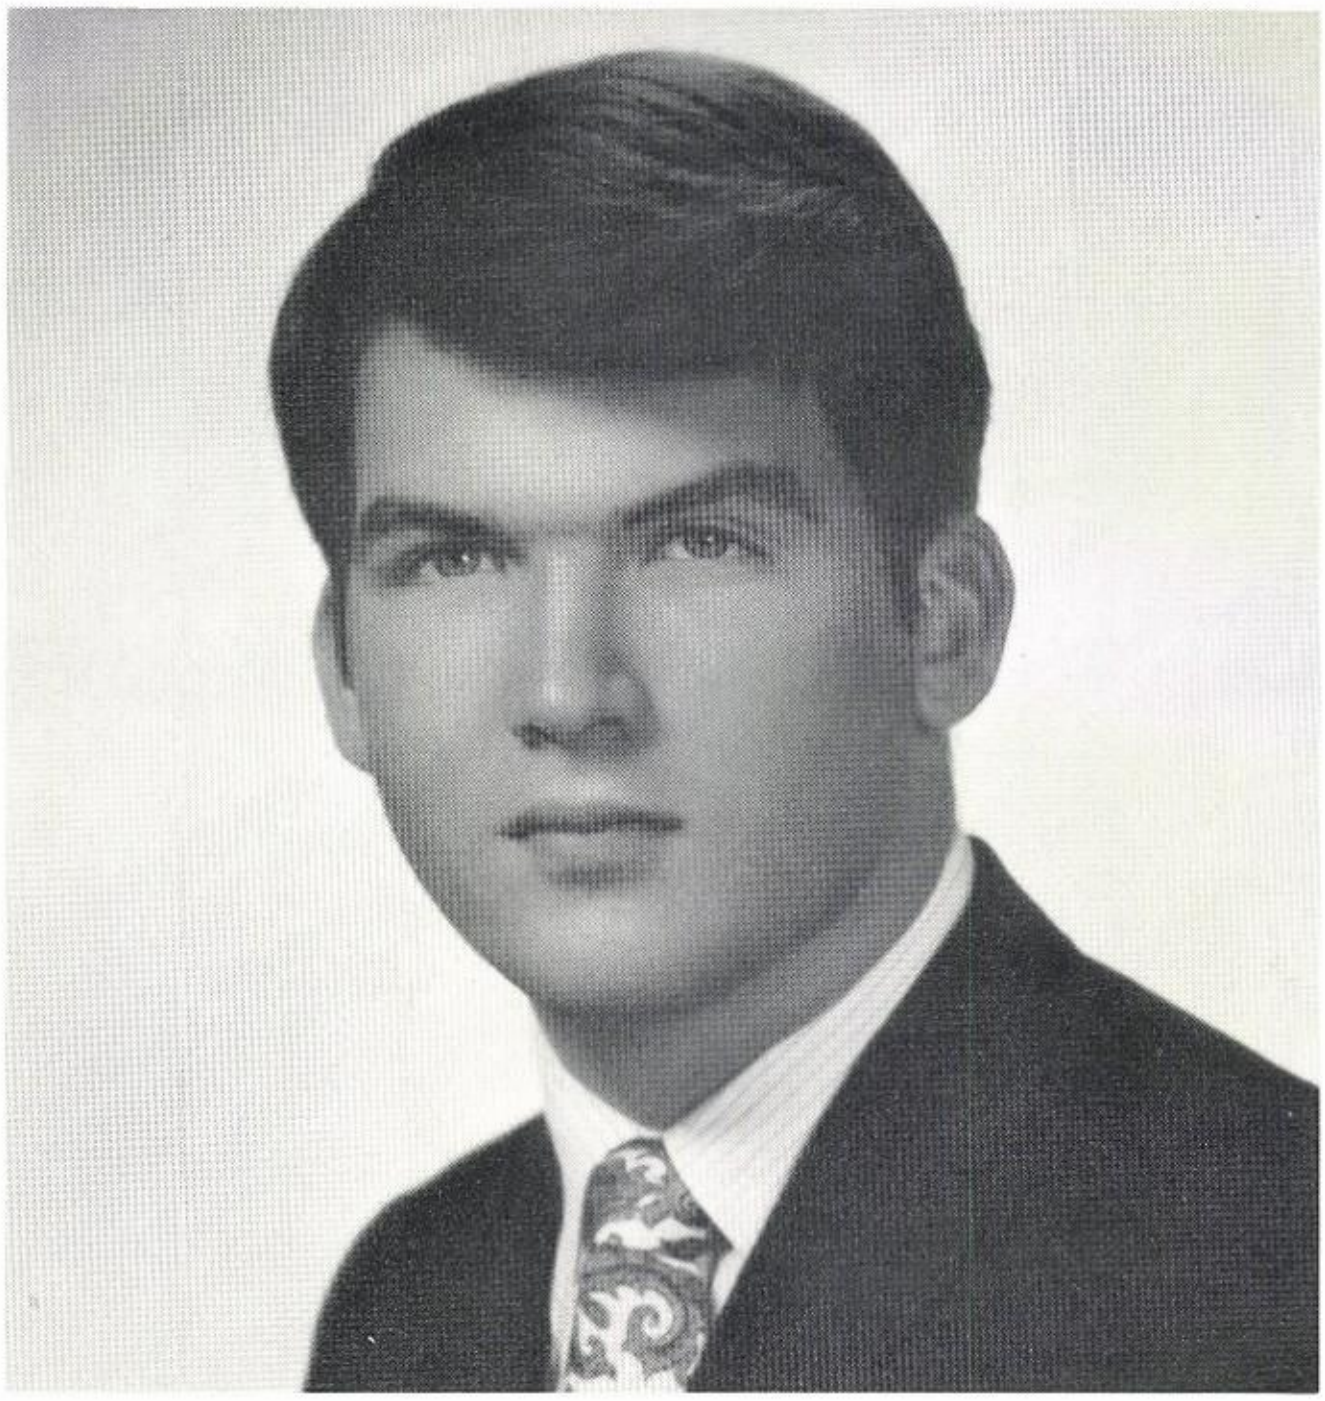
Mr. Priest became associated with the San Antonio Academy as a teacher in the fall of 1951 after having completed his work toward a B.B.A. degree at Southwestern University, Georgetown, Texas.

His first teaching areas at the school were science and reading for the fifth grade and mathematics for the third and fourth grades. Later, he took charge of the math in all areas but algebra. However, his teaching was interrupted by a brief period away from the teaching profession during which time he entered the Mexican food business in Houston, Texas with two of his former college friends.

After a very successful period of association, he decided (fortunately, for us) to return to the Academy and assume the role of athletic director and head of the mathematics department. Having been one of the outstanding coaches in the Bexar County Junior Conference and its president, he had an excellent background for the job of athletic director.

We have all admired him in his different jobs, but most of all we admire him as a person. He has a sincere interest in each of us as a student but particularly as boys. For this and for his honorable efforts as our teacher, we sincerely dedicate Blue Bonnet 1968 to Mr. John D. Priest.

In Memory of
Charles Halsted Richardson

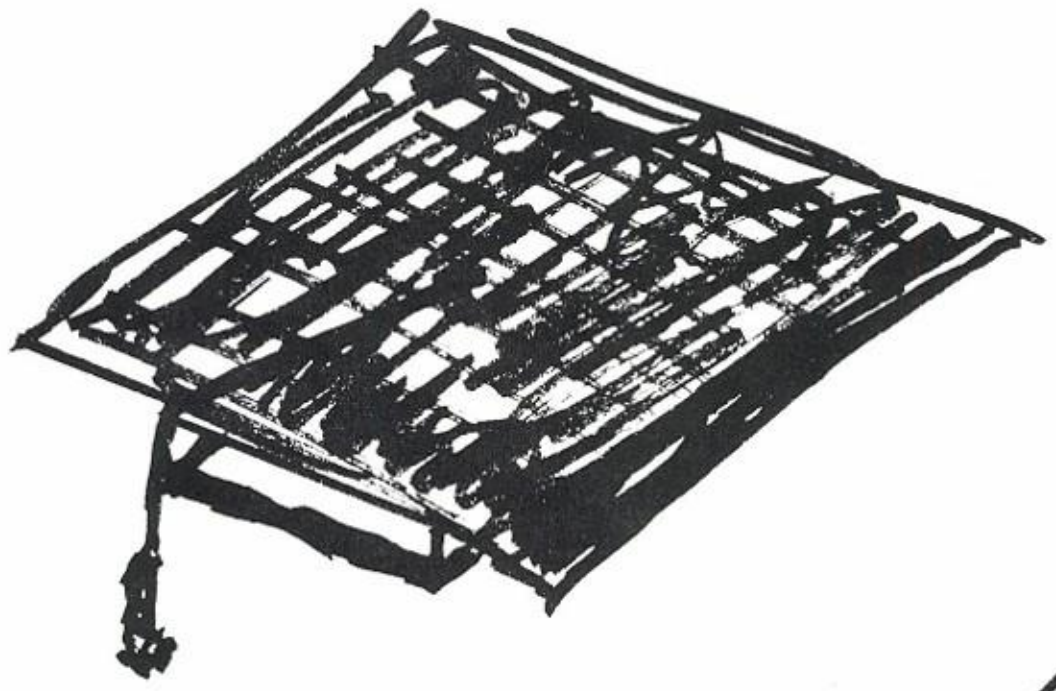


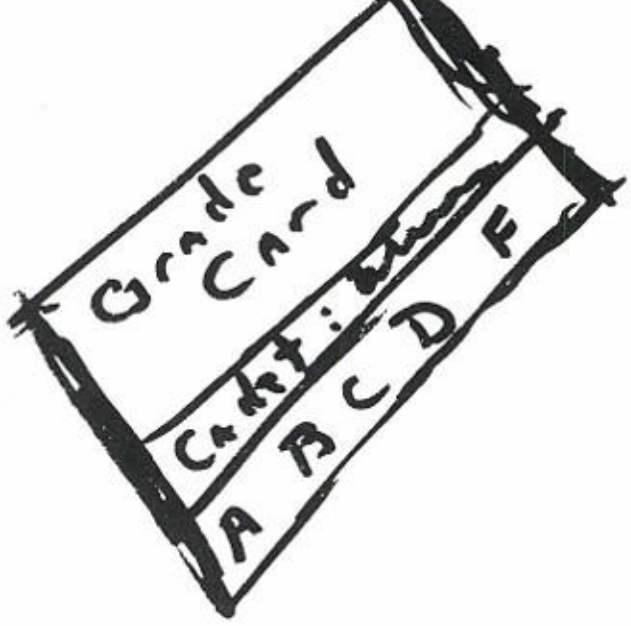
"WHEN I MUST LEAVE YOU"

When I must leave you
for a little while —
Please do not grieve and shed wild tears
And hug your sorrow to you
through the years,
But start out bravely
with a gallant smile;
And for my sake and in my name
Live on and do all things the same,
Feed not your loneliness on empty days,
But fill each waking hour in useful ways,
Reach out your hand
in comfort and in cheer
And I in turn will comfort you
and hold you near;
And never, never be afraid to die,
For I am waiting for you in the sky!

Helen Steiner Rice

Faculty





The Chairman of the Board

Colonel W. T. Bondurant, Sr.

The Chairman of the Board Speaks

The emphasis today in all walks of life seems to be preparation for tomorrow. The unfortunate element that seems to be left out of this frantic urgency is yesterday. Everyone is so caught up in the race to meet the new demands for efficiency, in the race to reach the moon and stars, and in the race for the new gain anywhere, anyhow, anytime, that those elements that put us at the jumping off spot are often ignored before the leap is made, and too often we find ourselves completely unprepared for the landing. We somehow seem to think that we'll just never have to hit ground or reality.

There is a philosophy still alive at the Academy that is a bit more practical. At the well-spring of knowledge there are first eternal truths that must be learned that have their tenets in man's relation to God and man's relation to his fellow man. Before you seek tomorrow, you must first examine yesterday. We want our students or rather our boys who are really men to reach the stars, but only by examination of the successes and failures of those who tried before can success be achieved in a better way and open more ways to those who would follow.

Academy men have achieved a high degree of success because they were early tutored in what morality, integrity, patriotism, brotherhood, and love of God mean, and at the same time they have been taught to dare to do great things if they believed in something's greatness. It is holding to these things, not just the idle dreams of tomorrow, that has made their lives and their communities richer. They have been doers not dreamers.

President

Lieutenant Colonel W. T. Bondurant, Jr.

The President's Page

Not very long ago I heard someone talking as though in authority about the steady downhill plunge of today's youth. It was very amusing to me at the time because I knew better. But, the more I thought about it, the madder I got, and the more determined to sound off I became.

You and I take for granted our children and don't get on our soap boxes enough, and by you and I, I mean parents and teachers. By children, I mean your flesh and blood and our students.

Most of our youngsters know more about everything than we did, and they aren't ashamed of it. The typical feeling in school not too long ago was to be ashamed if you were smart. Today's young man or young woman knows that you had better be smart or you've had it. They're independent, too. By the time in their lives when most of us were asking when we were going to be permitted to learn how to light the stove, they've built one and improved it. When we were squirting each other with seltzer bottles at this age, they learned that the CO_2 cartridge that made the water fizz was capable of air displacement and hence made a good mock-up jet engine for model cars.

At the same age that we were trying to memorize addition facts, they are learning that numbers are symbols and there are such things as algebraic number lines and equations. They are learning the history of our country, but they are learning also that it is being made every day with every moment.

There is a renaissance going on now that challenges adults to meet the greatness of youth. They're not plunging downward; they're racing upward. Come along with me, the best *is* yet to be. Know your son for all that I know him to be.

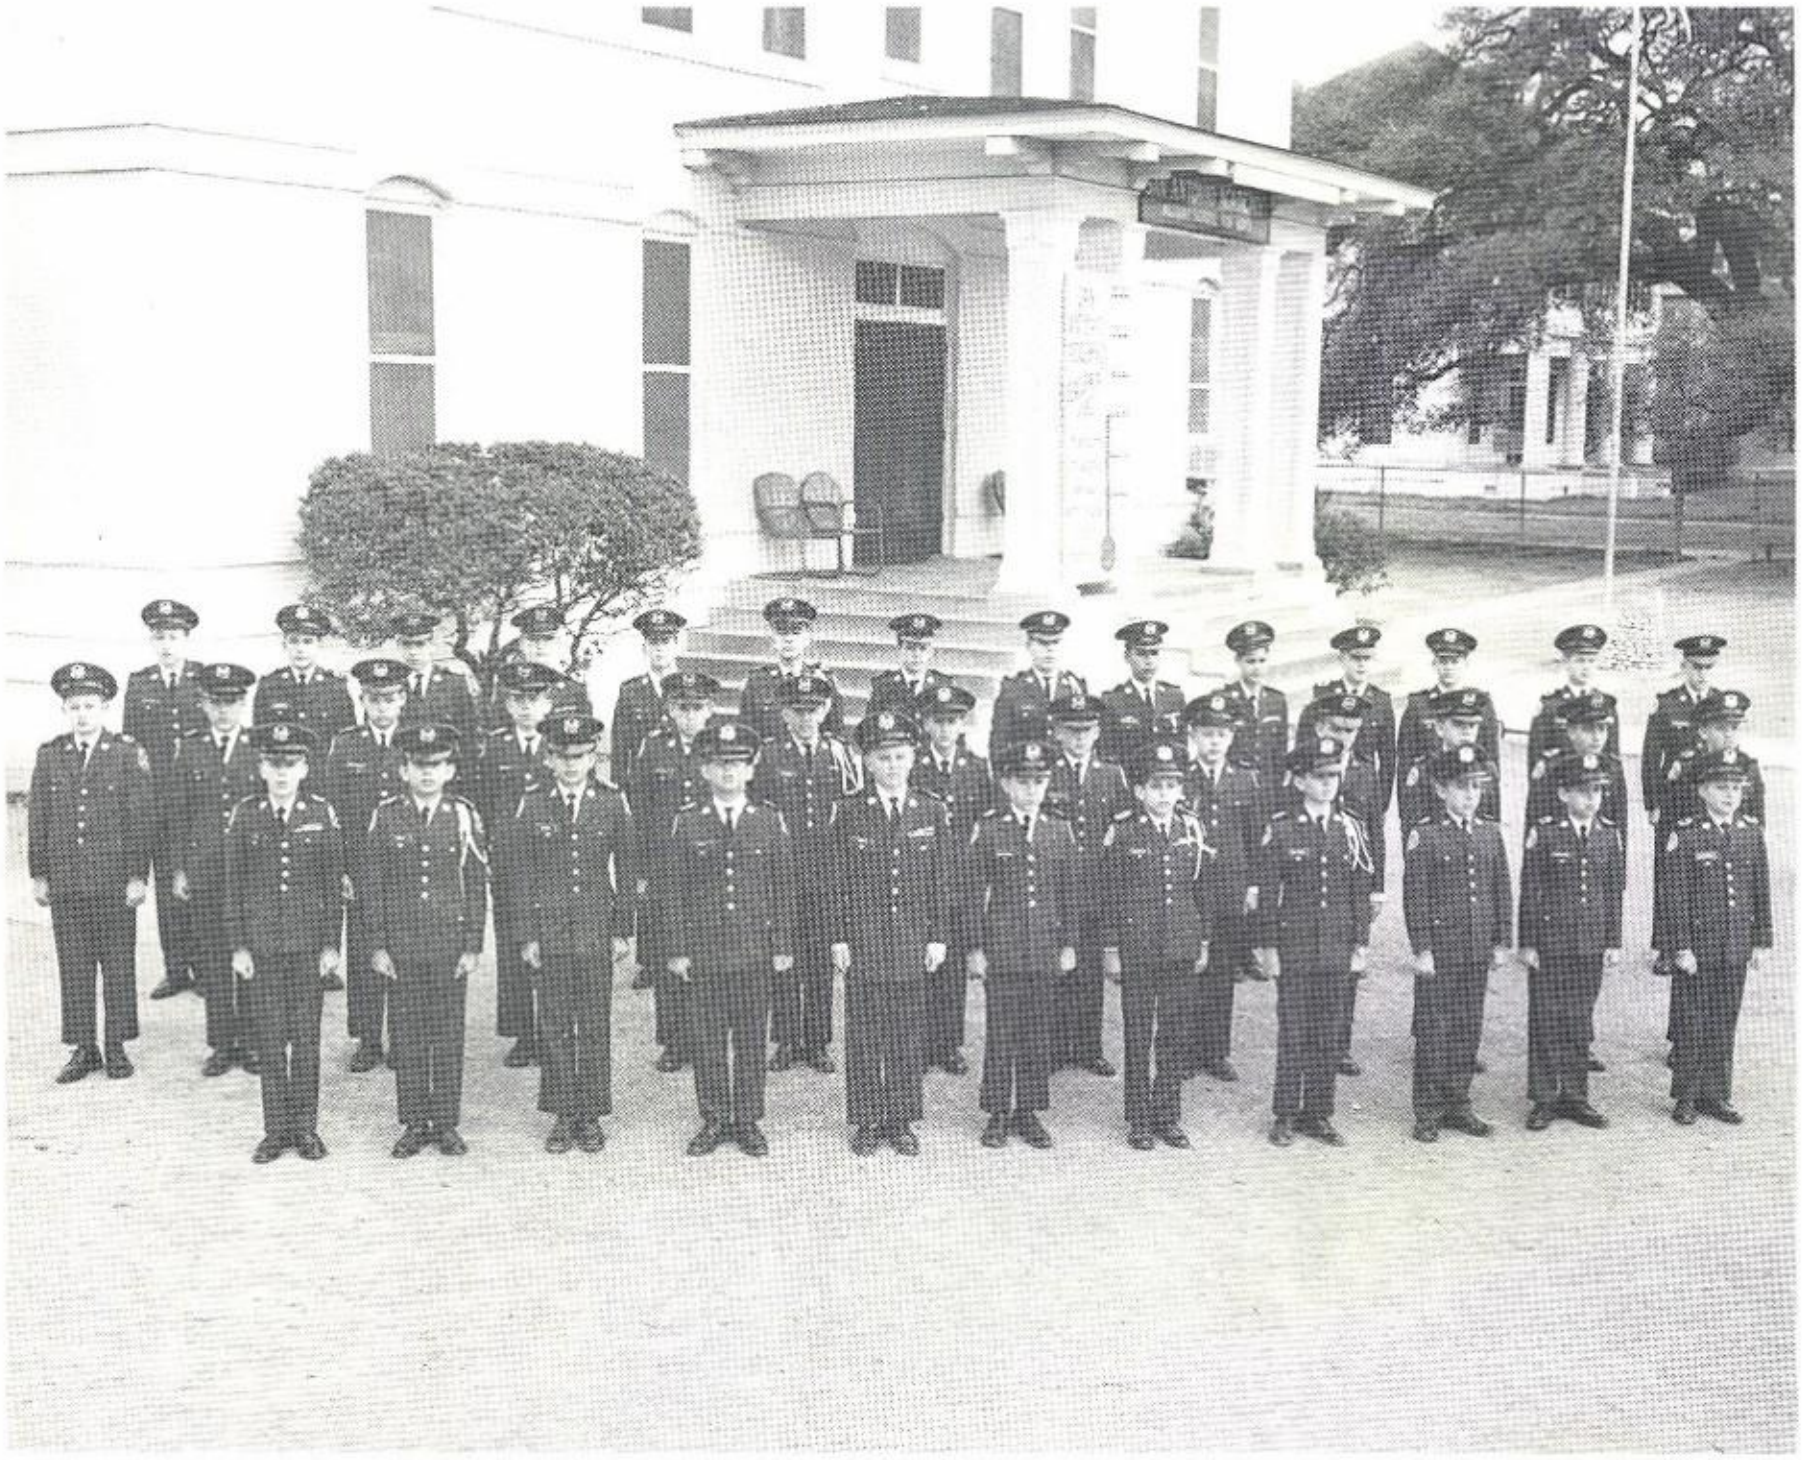
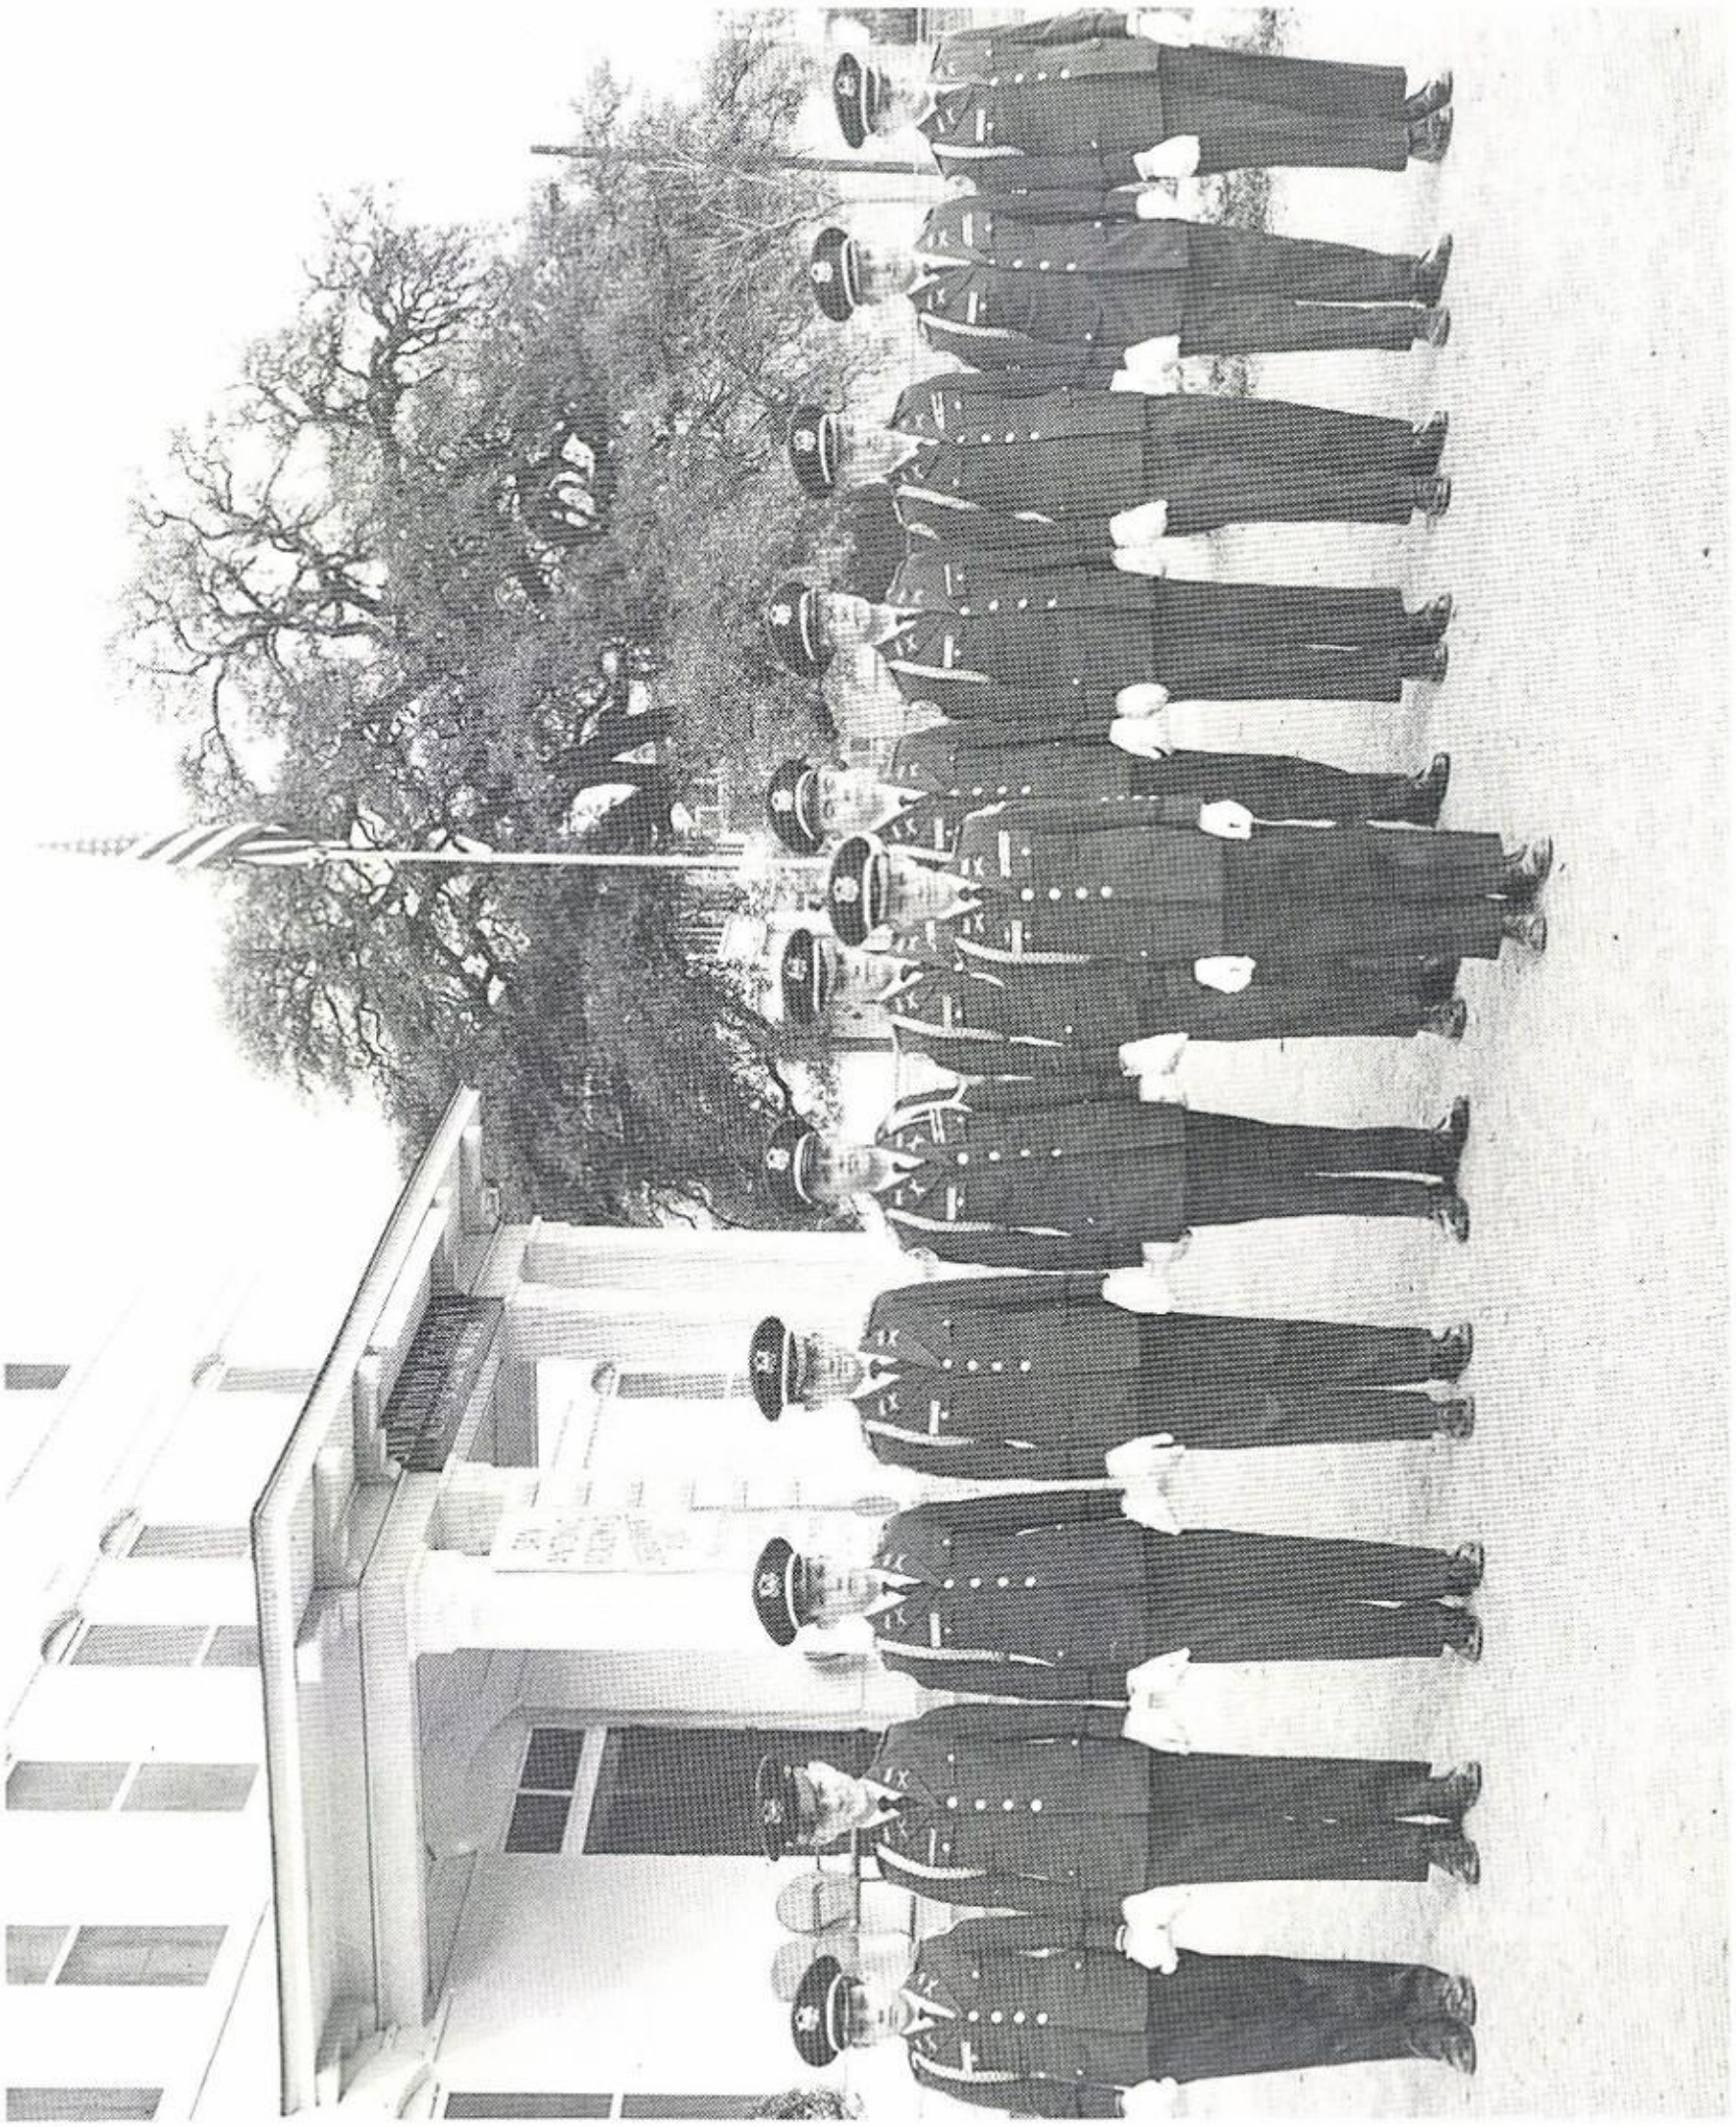
NON-COMMISSIONED OFFICERS

RANKING NON-COMS



From this group of boys will come the leaders of tomorrow. Their effort has been great to reach the goal of leadership. Soon they will be commanding a battalion. We are happy that such a group of boys will soon become the officers at the Academy.

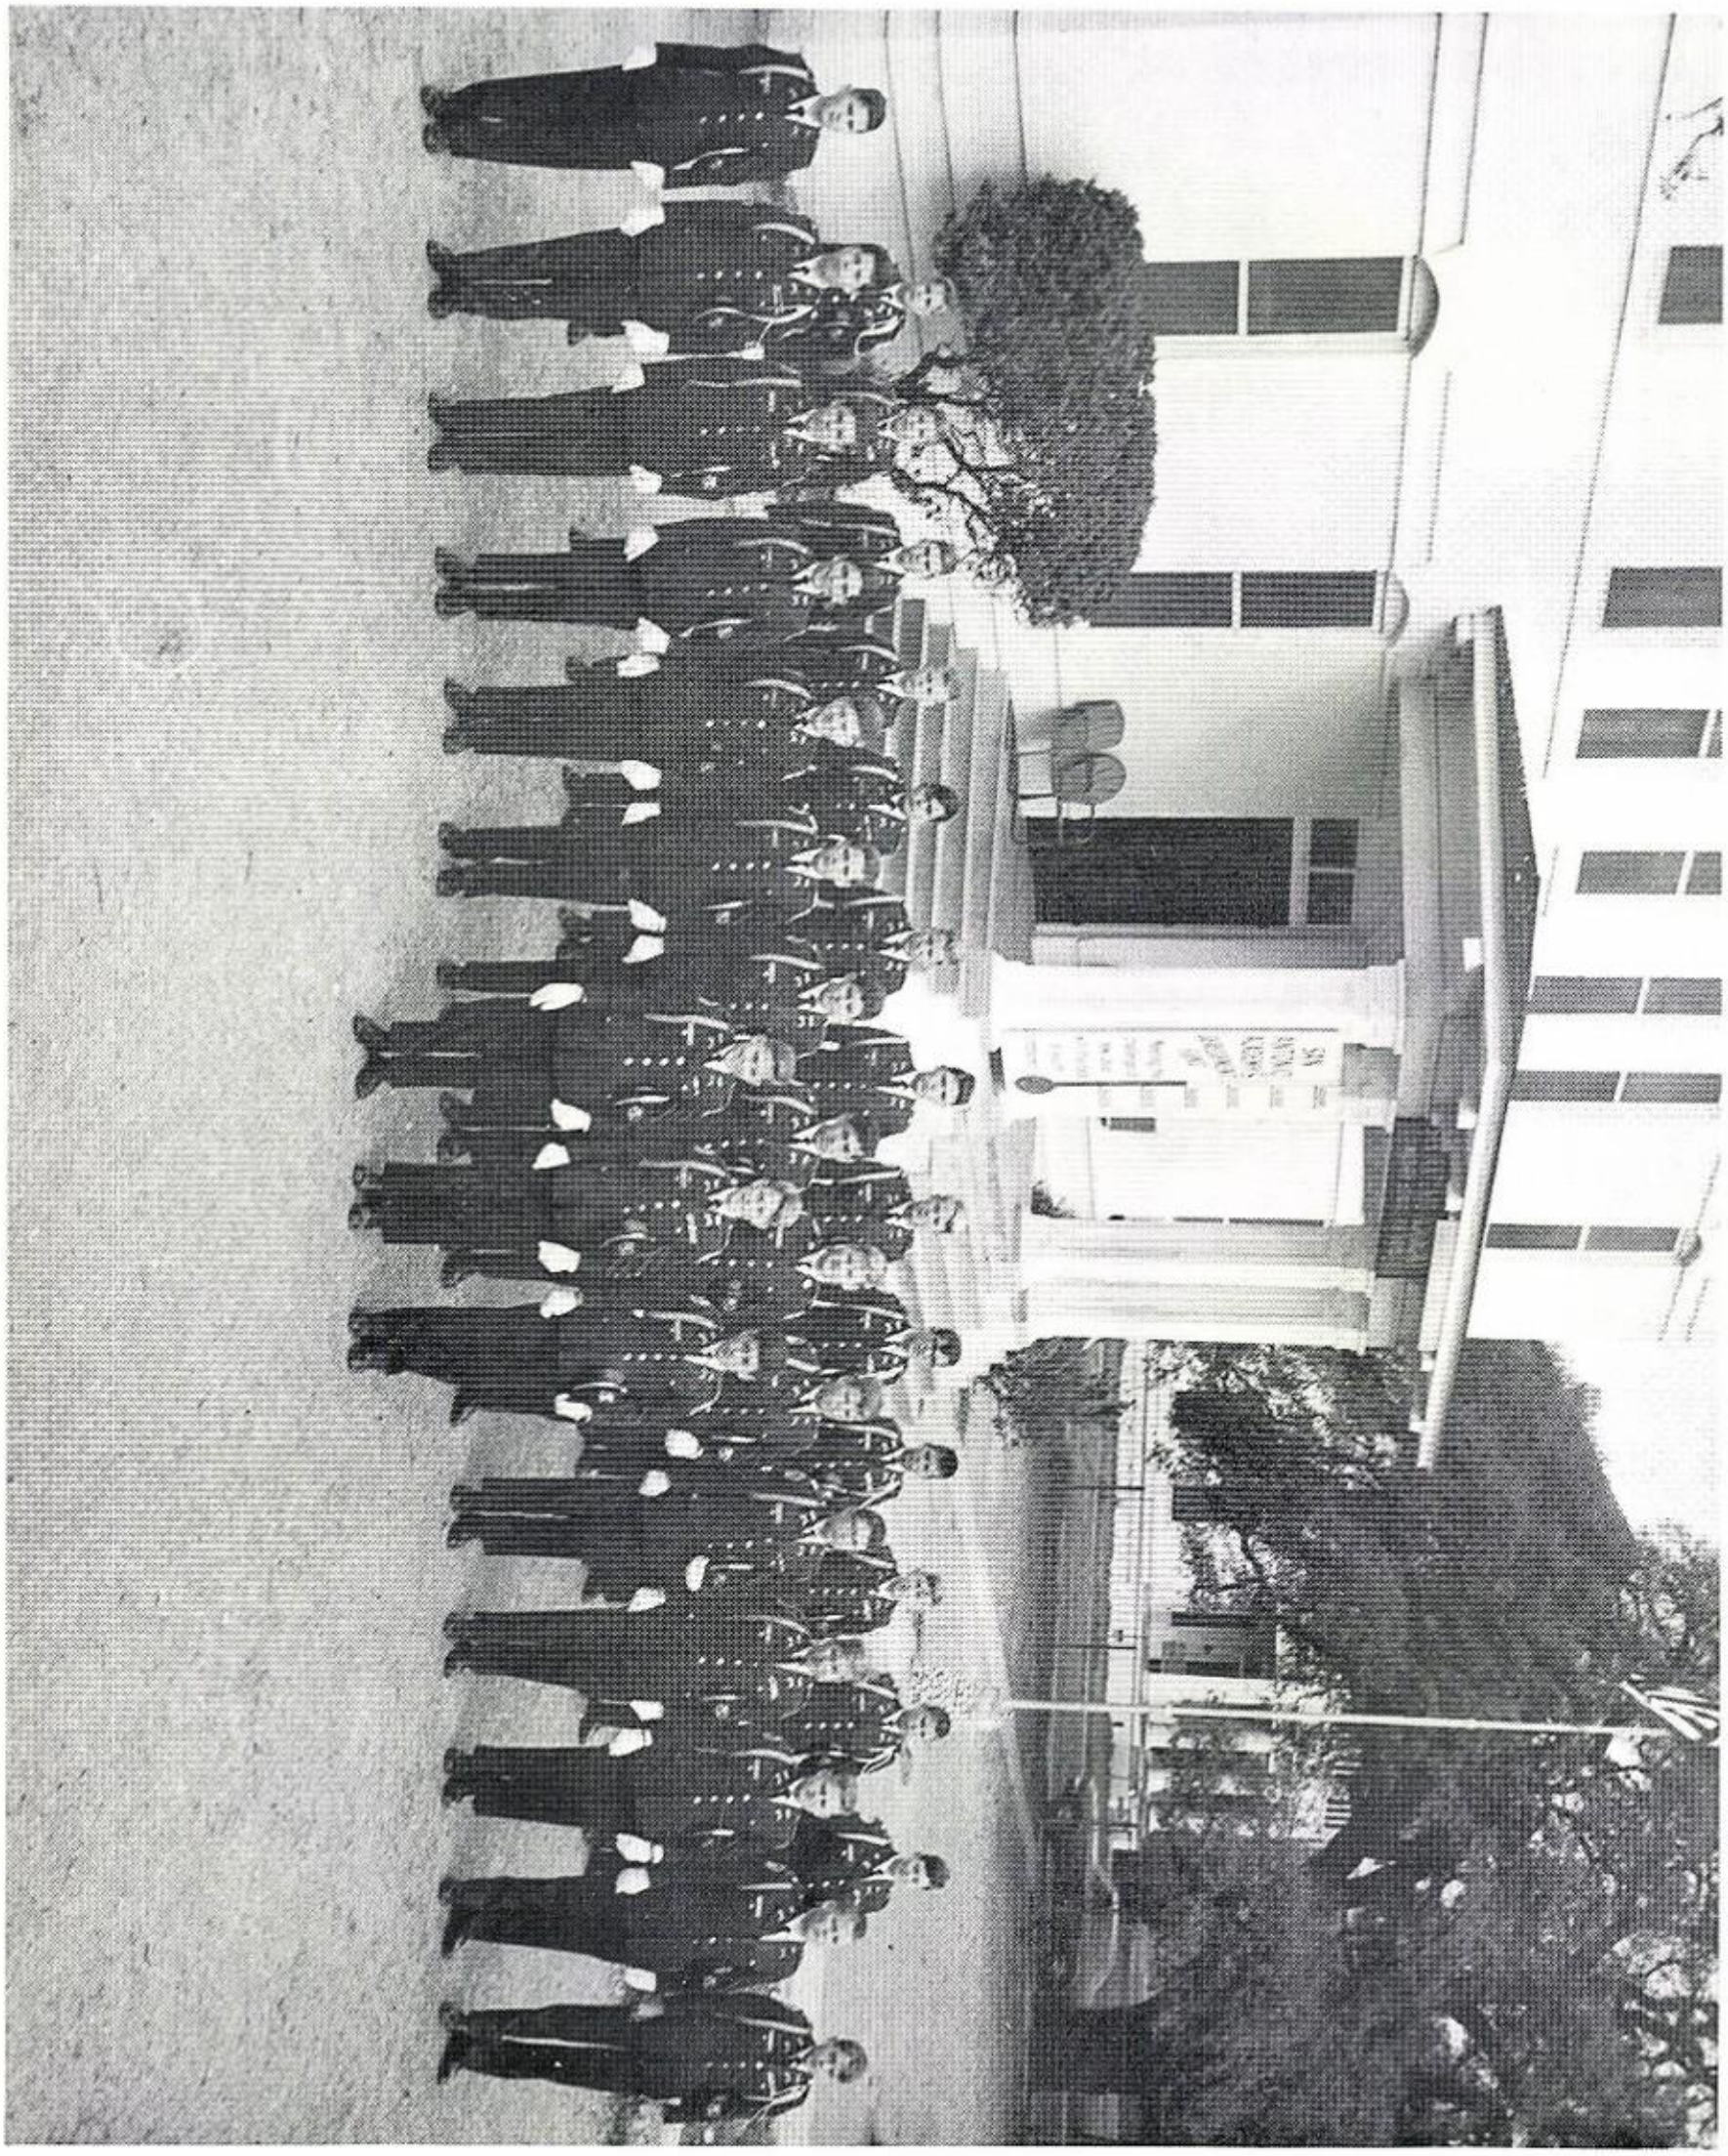
TOP GOLD BRAID



The Top Gold Braid is the organization of high-positioned officers. These young men are the commanders of the battalion. Each man works hard every day to make his detail the best. We gratefully acknowledge their great effort.

Military '68

OFFICERS



These are the leaders of the Academy. These are the men that new cadets look up to as they enter the Academy. If we didn't have any officers then we would not have the fine military program that we do. We are proud to have such fine young men representing our school.

TO THE MEMBERS
OF THE GRADUATING CLASS.

Dear Friends

You will take with you some of the greatest memories of your life when you leave San Antonio Academy.

I sincerely hope these memories, including the knowledge you have acquired, the training you have received, and the friends you have gained will bring you a richer, happier, and more prosperous life in the future.

Congratulations - - - ! You have passed a significant milestone in your educational career. May we, as publishers of your yearbook, share your pride in your accomplishment?

Other milestones lie ahead, even more stimulating, and we predict distinction and success will be yours along the way.

And remember please, it is always the pleasure and privilege of The Clegg Company to serve you.
